
CATALYST DBT

Chemical Name: Dibutyltin dilaurate

CAS #: 77-58-7

Commodity Specification

Appearance	Colorless to light yellowish liquid (will be crystals in lower temperature)
Sn Content	18+/-1%
Volatile Content	0.4% max
Specific Gravity, (20/20°C)	1.040—1.060

Application Direction

General Information: It has excellent transparency, lubricating property and weathering resistance and it is mainly used as stabilizer of plastic soft transparent products, such as film, transparent hose, hard transparent products, also as catalyst in the synthesis of polyurethane foams

Packing & Storage

Normally packed in 25kg net plastic drums.

Stored in cool and dry airflowing area preventing sunlight.
