**SECTION 4 - FIRST AID MEASURES**

**General information:** Take persons to a safe place. Observe self-protection for first aid. Before seeking medical attention remove contaminated clothing and shoes. Take a copy of the Safety Data Sheet when going for medical treatment.

**Eyes:** Flush eyes with plenty of water for at least 15 minutes, Protect unaffected eye. Consult an ophthalmologist immediately.

**Skin:** Flush skin with plenty of soap and water while removing contaminated clothing and shoes. Get medical attention.

**Ingestion:** Do not induce vomiting. Never give fluids if patient is unconscious or having convulsions. Allow the victim to rinse his mouth then drink plenty of water. Consult a physician.

**Inhalation:** Remove from exposure to fresh air immediately. If breathing difficult occur, keep patient half sitting with upper body raised, consult a physician.

**Indication of any immediate medical attention and special treatment needed:** Treat symptomatically and supportively

**SECTION 5 - FIRE FIGHTING MEASURES**

**General Information:** Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan.

**Suitable extinguishing media:** Use water spray, dry chemical, carbon dioxide, or chemical foam.

**Further information:** Do not direct a solid stream of water or foam into hot, burning pools: this may cause frothing and increase fire intensity. Cool closed containers exposed to fire with water spray.

**Flash point:** 95°C (203°F)

**Auto-ignition:** 395°C (743°F)

**Explosion Limits:**
- Lower: 1.5%(V)
- Upper: 50%(V)

**HMIS Classification**
- Health: 3
- Flammability: 1
- Physical hazard: 0

**NFPA Rating**
- Health: 3
- Flammability: 0
- Reactivity: 0

**Advice for firefighters:** Water used to extinguish fire should not enter drainage systems, soil or stretches of water. Ensure there are sufficient retaining facilities for water used to extinguish fire. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulation

**SECTION 6 - ACCIDENTAL RELEASE MEASURES**

**General Information:** Use proper personal protective equipment as indicated in Section 8. Keep out unprotected persons, ensure adequate ventilation.

**Spills/Leaks:** Absorb spill with inert material, (e.g., dry sand or earth), then place into a chemical waste container, to be disposed of in compliance with existing regulations.

**Environmental precautions:** Do not flush into surface water, sanitary sewer system

**SECTION 7 - HANDLING AND STORAGE**

**Handling:** Keep containers tightly sealed. Ensure good ventilation/exhaustion at the workplace. Open and handle container with care. Keep ignition sources away – No smoking.
**Storage:** Store in a locked cabinet or with access restricted to technical experts or their assistants. Aqueous solutions are incompatible with alkali and alkaline earth metals and many reactive organic and inorganic chemicals. Store temperature: ≤25°C

**** SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION ****

**Engineering Controls:** Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits.

**Personal Protective Equipment (PPE)**

Eyes: Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Skin: Wear appropriate protective gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: Follow the OSHA respirator regulations found in 29CFR 1910.134 or European Standard EN 149. Always use a NIOSH or European Standard EN 149 approved respirator when necessary.

**Hygiene measures:** When using, do not eat, drink or smoke. Wash face and/or hands before break and end of work. Remove contaminated or saturated clothing. Wash contaminated clothing before re-use.

**Protective measures:** Handle in accordance with good industrial hygiene and safety practices. If workplace exposure limits are exceeded and/or larger amounts are released (leakage, spilling, dust) the indicated respiratory protection should be used. If there is the possibility of skin/eye contact, the indicated hand/eye/body protection should be used. Do not breathe in vapors or aerosols. Avoid contact with skin and eyes
